

NJ ACTS Element E

Clinical Translational Science Research Award Program 2025 Request for Applications

NJ ACTS Element E is requesting applications for research projects that will:

- Focus on strategies and/or innovations to overcome truly significant challenges in clinical and translational research
- Improve dissemination and/or implementation of evidence-based interventions
- Address a translational research question in a particular disease or intervention context, but provide insights or innovations that are generalizable across different diseases and/or translational research projects
- Increase efficiency and/or effectiveness of research translation

Up to \$162,500 in direct
costs per project

Typically two years
per project

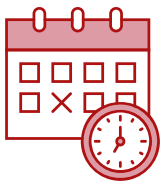

Two projects
anticipated this cycle

Who is eligible? Faculty affiliated with the Alliance Partners of NJ ACTS (Rutgers, Princeton, NJIT, or RWJ Barnabas Health).
