Oct. 22 - Oct. 24 : Individual Game

Nov. 5 - Nov. 7 : Team Game

(For Team Game, can participate as a Team of 1, or up to 7 members)

nationalcyberleague.org

The National Cyber League (NCL) is a biannual cybersecurity competition.

Open to U.S. high school & college students, the competition consists of a series of challenges that allow students to demonstrate their ability to identify hackers from forensic data, pentest and audit vulnerable websites, recover from ransomware attacks, and more. NCL covers a wide variety of cyber skills with varying difficulty levels. Challenges start easy and get progressively harder. NCL is all about getting further each season.

NCL Season Overview

Aug. 23 - Dec. 17

Gymnasium

Practice challenges to prepare for NCL

Oct. 11 - Oct. 18

Preseason

Compete to get bracketed for Individual Game

Oct. 22 - Oct. 24

Individual Game

Compete and show off your individual skills

Nov. 5 - Nov. 7

Team Game

Collaborate with your Team (Team size: 1 - 7)

Each school may register multiple Teams of any size

Why Participate in the NCL?

NCL makes you a better cybersecurity professional

by helping you understand your strengths and weakness, so you know how to improve yourself.

Build confidence by getting the experience of applying your cybersecurity knowledge to solve real-world problems.

The NCL Scouting Report is a powerful tool to present to employers when applying for jobs or internships.

It's fun and you can play from home or from school!

Over 6,000 students across the nation participate in the NCL each semester!

Skills Covered in the NCL

Open Source Intelligence

Log Analysis

Network Traffic Analysis

Cryptography

Scanning & Recon

Forensics

Password Cracking

Enumeration & Exploitation

Web Application Security
