

## **Title of the Research Project**

### **List of Authors**

Name(s) of Department(s) of Authors  
New Jersey Institute of Technology, Newark NJ 07102

**Abstract:** Briefly describe the research problem or market need, its significance and the goals of your project work. Provide a summary of your research methods, experimental design and prototype development (as applicable) that you are working on during the summer research program. Since you are not expected to have the final results at the time of submitting this abstract, feel free to describe the anticipated outcomes of your project from a broad and general perspective, without the details of complete results. Then summarize with a brief conclusion and comments on future work. You may include a figure, block diagram or result tables/graphs but everything must not exceed one page with one inch margin on all sides and “Times New Roman” 12-point size font (as used on this template). Only title of the abstract should be in “Times New Roman” 14-point size font. Please make sure that both sides are justified for the abstract text. Your abstract should be carefully proofread for any spelling and grammar issues. The abstract will be included in the NJIT 2024 Undergraduate Research and Innovation Summer Symposium Book of Abstract. You can review the 2023 Book of Abstracts for Summer Research Symposium for additional sample abstracts on <https://centers.njit.edu/uri/programs/index.php>.

**Figure #:** Figures should be properly numbered and captioned with Times New Roman 9-point size font.
